BUTON

storage solution

The Buton Storage Collection highlights the natural beauty of reclaimed teak wood through its refined craftsmanship and distinct geometric surfaces. Each piece is constructed from hand-selected recycled teak panels, showcasing unique grain variations, tonal contrasts, and artisanal joinery work.
The doors feature individually arranged teak blocks or chevron-cut planks, creating dimension and character through carefully aligned angles and textures. Soft-close hardware, smooth sanded edges, and solid teak frames enhance both durability and the tactile quality of each unit.
Thoughtfully finished to preserve the authentic warmth and patina of reclaimed timber, every cabinet and chest in the Buton range carries its own natural markings—knots, grain shifts, and color depth—making no two pieces the same.

HANGING LAMP

Agel is a natural fiber derived from the leaf sheath of the Corypha palm, traditionally harvested in Indonesia. The material is known for its high tensile strength, flexible weave structure, and lightweight durability, making it ideal for handcrafted lighting applications. Agel fibers are manually extracted, sun-dried, and braided or woven to achieve consistent texture and performance. Because the fiber is biodegradable, renewable, and produced through low-impact processing, it is widely valued in sustainable product development. In lighting products, agel delivers a warm organic texture, excellent shape stability, and a distinctive artisanal character that aligns with hospitality, residential, and large-scale interior projects.

Care instructions

To maintain its softness and shape, we recommend the following care:

- Wash gently using cold water (max 30°C) on a mild cycle. Use a soft detergent and wash with similar colors.
- Air dry flat whenever possible. If using a dryer, choose low heat and remove promptly.
- Avoid bleach or harsh chemicals, as they may damage the fabric and color.
- Iron on low heat if needed, but avoid direct contact with the tassels.
- Store in a dry area away from direct sunlight to prevent fading.
